The UK Curriculum and School Year

We often get asked whether it will be hard to transition into the British education system as a new graduate or experienced Aussie, New Zealand or Canadian teacher.

The good news is that the British National Curriculum is similar to what you have been teaching. This is why we have such a strong reputation in UK schools and there are opportunities available year-round for new graduates and experienced teachers from these countries.

Changes to the Youth Mobility Scheme Visa from January 2024

New Zealanders aged 18-35 are now able to apply and gain a Youth Mobility Scheme Visa, if they meet the eligibility requirements, and from January 31st, 2024, Australians will also see the age limit for the Youth Mobility Scheme Visa increase from 30 to 35 years.

The initial visa is 2 years with an option to extend for an extra year, 28 days prior to your initial visa expiring. You must be in the UK to apply for the extension.

Types of Teaching Work Available

We do not believe that one size fits all in terms of UK work pathways for overseas teachers. We know that supply work is perfect for some people but would be a nightmare for others. Beware if you are being talked into only one option.

Teach in have a huge branch network and we can offer supply, contract and permanent work in state, faith and independent schools across England. Talk to a teacher/ consultant about what you want to get out of your UK teaching adventure and we will help you make that happen.
