Is teaching in the UK right for you?

Are you looking for a challenge?

Teaching in the UK is not unlike teaching in Australia, Canada or New Zealand but starting a new job in a new country will always be a bit stressful to start with.

You'll have to learn the lingo, get to know your new school's way of operating, and build relationships with your pupils (that's what they call students there) and colleagues.

Hear what our teachers have to say about teaching in the UK in 2024

Find out what our teachers say about their time traveling and teaching in the UK. Teachers share insights on working in UK schools, their travel plans, and our social events.

We have just come back from visiting state, independent and faith schools across London and talking to headteachers about their needs for 2025. If you are interested in securing work in 2025 and want help to find the perfect job, we are here to help!

Part 6 -Inclusion

During covid, we asked esteemed UK Principal, Stuart McLaughlin to partner with us to create a series for overseas and local British teachers that walks you through the main things you need to know to thrive in a UK classroom.

Part 6 focuses on creating and maintaining an inclusive classroom and provides strategies to help to establish a truly inclusive environment where students can thrive.
